Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. The Amendment, and remarks therein, received on 1/08/07 have been entered and carefully considered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior office action.

Response to Amendment

3. In light of applicant remarks, the limitations of claims 1-20, as supported by the specification, overcame the art of record.
4. Applicant remarks towards the 35 U.S.C. 101 rejections have been found partially persuasive. Although claims 1 and 7, for example, are directed towards the manipulation of a media signal, it is clear that this manipulation results in a tangible result: media signal that can be authenticated as original or alternated. However, claim 18 remains rejected. Although applicant argues that "detector" and "analyzer" is statutory product with parts, such as a detector an analyzer the claim language does not exclude these parts to be simply software, and according to the specification such an interpretation is valid. In the Concluding Remarks (pg. 10) the specification explicitly suggests that applicant's system ma be implemented in hardware or software. Thus, applicant should either clearly identify in the claim language that the decoder is implemented (at least partially) in hardware or, if applicant desires not to limit the detector to hardware implementation, to specify that it is implemented on a computer readable medium.
5. Claims 19-20 remain rejected by virtue of their dependence.

6. Claims 1-20 have been examined.

Claim Rejections - 35 USC § 101

7. Claims 18-20 remain rejected as being directed to non-statutory subject matter.

(For details refer to Response to Amendment section, above.)

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
